## Kingsport Amateur Radio Club July 2025 Edition

## President's Notes

Summer is passing us by quickly. I hope everyone had a fantastic Fourth of July! It has been a very busy summer for the club.

Just a reminder: the next meeting is the club picnic on August 14th. We will meet at the Eastman Recreation Area Shelter #9. We plan to start fellowship at 6 PM, but the meal will be served a little later to accommodate those arriving after work. Please do not come to the Press Room. There is a signup sheet available on the website, where you can view what others are planning to bring to help avoid having five of one dish and none of another. Signing up will also give us an idea of the number of attendees for planning purposes. The club has a supply box with plenty of items, including plates, cups, utensils, paper towels, and more. The club will be providing burgers and hot dogs. [Sign Up Sheet](#)

Erik will be posting the results for the Summer Field Day held on the last weekend of June. Please see the results below, and thank you to everyone who participated. The information is also available on the website.

Our club meeting took place on July 10th in the press room. The meal was well received, but the cost increased from \$14 to \$17. We are exploring whether the club would like to continue using this venue. If anyone has feedback, please inform a club officer. The presentation on digital communication was particularly informative for newer club members. This was the first time we conducted a radio demonstration using remote desktop access from home stations. I believe this option opens up additional possibilities for future presentations. We are also considering the possibility of conducting a demonstration of VarAC later in the year.

Funfest Club demonstration is scheduled for July 21st at 10 AM and July 22nd at 1 PM. The event will take place at 301 Louis Street in Kingsport, at the VO Dobbins Complex near the splash pad. We would greatly appreciate assistance from additional volunteers if anyone is available. A special thank you to Mike Gallatin's family, John Williams, and Tom Price for their current volunteer efforts. We plan to set up a station for HF and VHF during the demonstration. Additionally, we will organize a small fox hunt for kids and families, as well as a Meshtastic demonstration.

October is shaping up to be a busy month for us, arriving sooner than many might expect. We have three events scheduled: Netherland Inn, Fire Prevention Week, and Rocky Mount. A special thank you to Kyle Schneider, Tom Price, and Mike Gallatin for volunteering and leading these efforts.

Sincerely,

Neil Weber KM4NWH

President

## Club News

Our Field Day results are on the website. [Continue Reading](#)

The KARC foxhunt for July will take place on the 19th of the month. It begins at 3 p.m. And check-ins starting at 2:45 p.m. On the 146.970 repeater. Participants can start from any location in the area, keeping in mind that the foxes will be hidden within the city limits, so having a map on your phone is advisable. All fox frequencies are listed on the [W4TRC.org website](http://W4TRC.org). If you are interested in joining the first trip, please contact Josh Carmack or Neil Weber to arrange a ride. Their phone numbers and email addresses are also available on the website.

HHART & KARC meets at Randall's every 3rd Wednesday of the month from 10:00 AM - 12:00 PM.

NETS: David Herron K4UVU just volunteered and was voted in as the clubs new Net administrator. He currently needs 1-2 new controllers due to commitments causing problems for 2 of the old controllers. We are also considering additional nets on other bands. Let us know what you have interest in.

### **Holston River Valley HF Net 7.295 MHz**

Beginnings: In mid 2025 the Holston River Valley HF Net was started as a platform to bring people and clubs the East TN, SW VA area together each Wednesday night at 8:00 PM local time.

Growth: This net is open to anyone that holds a General class or higher license.

Technology: We will be utilizing Netlogger for this net. We will take check-ins from Netlogger and will request RF check-ins. [Download Here](#)

Hamshack Hotline to End Service. Hamshack Hotline has announced its decision to end voice over internet protocol (VoIP) service effective August 29th, 2025. Established in 2018, the VoIP provider has enabled thousands of hams to connect across the globe. The workload required to maintain the service was cited as a reason for shutting down. [Continue Reading](#)

DXLook – Where Your Signal Is Heard. We've all been there. You call CQ on 15 meters, the radio's alive, conditions seem okay... but you're not getting answers. So, you do what most of us do – check propagation. Maybe you fire up PSK Reporter, or flip to WSPRnet, or check the DX Cluster. But you end up hopping between tabs, trying to piece together the story of what's actually going on out there. That's exactly what led me to build this tool. [Continue Reading](#)

Amateur Radio Volunteers Serving During Texas Floods. Volunteer amateur radio operators serving in the ARRL The National Association for Amateur Radio® (ARRL®) Amateur Radio Emergency Service® (ARES®) are embedded with local served agencies in the areas of central Texas affected by devastating floods. S50CLX Telnet DXCluster focuses on POTA, BOTA, SOTA, WWFF. POTA (Parks On The Air), SOTA (Summits On The Air), WWFF (World Wide Flora and Fauna), WWBOTA (World Wide Bunkers on The Air) are internationally renowned programmes. They encourage licensed radio amateurs to operate outdoors within nature parks, mountain peaks or protected areas. Operators making contacts from bunkers, parks, from summits or from protected flora and fauna areas are called activators and operators who are contacted are called hunters. [Continue Reading](#)
