## Kingsport Amateur Radio Club November 2025 Edition

# Vice President Notes

The next meeting will be held in the pressroom at Food City at 6:30. Voting for next year's officers will take place at this meeting, along with a trivia contest featuring prizes for the winners. Winter Field Day sign-up is now live on the website and will be held at Duck Island, Site 3. We are currently working on fixing Kent Harris's repeater hopping issue. If it cannot be repaired, it may need to be replaced. David Herron has transferred the frequencies 443.175 MHz, which were used on the club's old repeater, along with all the equipment currently associated with it. We are now exploring options to connect the old repeater to Wires-X or to add a DMR repeater in the future. The antenna is currently positioned too low, so we need to raise it higher, which may require acquiring some hardline cable. A motion to drop the BMRC name and add all Eastman members to the KARC lists was passed without objections. Eastman already recognizes KARC as their club. This change will not affect how employees or retirees pay dues; it is intended solely to unify the clubs and simplify administration. We need a liaison for communication between KARC and Eastman, who must be an Eastman employee or retiree. This position will be offered at the December club meeting. We are also working to get internet access at the repeater site. Greg and Joshua have spoken with someone who already has fiber optic service on the mountain. We have a \$300 budget allocated for this if needed. Update from the nomination committee: All members have been contacted to offer officer positions for next year. Several positions have multiple candidates. We are exploring ways to strengthen the club's relationship with the City of Kingsport and to establish closer ties with the fire department, EMS, and police department. The idea of having three updated stations with improved equipment was proposed, including newer radios with better antennas, power supplies etc...

Sincerely,

Justin Compton, K04DCD

Vice President

# Club News

The KARC foxhunt for November will take place on the 15th of the month. It begins at 3 p.m. And check-ins starting at 2:45 p.m. On the 146.970 repeater. Participants can start from any location in the area, keeping in mind that the foxes will be hidden within the city limits, so having a map on your phone is advisable. All fox frequencies are listed on the [W4TRC.org website](http://W4TRC.org). If you are interested in joining the first trip, please contact Josh Carmack or Neil Weber to arrange a ride. Their phone numbers and email addresses are also available on the website.

HHART & KARC meets at Randall's every 3rd Wednesday of the month from 10:00 AM- 12:00 PM.

NETS: David Herron K4UVU just volunteered and was voted in as the clubs new Net administrator. He currently needs 1-2 new controllers due to commitments causing problems for 2 of the old controllers. We are also considering additional nets on other bands. Let us know what you have interest in.

## **Holston River Valley HF Net 7.295 MHz**

Beginnings: In mid 2025 the Holston River Valley HF Net was started as a platform to bring people and clubs the East TN, SW VA area together each Wednesday night at 8:00 PM local time.

Growth: This net is open to anyone that holds a General class or higher license.

Technology: We will be utilizing Netlogger for this net. We will take check-ins from Netlogger and will request RF checkins. [Download Here](#)
